

FOX VALLEY METROLOGY ADVANTAGE

Fox Valley Metrology is a partner to the Quality Assurance Departments of thousands of organizations worldwide. Every day, we increase our partners' profits through many value added benefits, such as:

- **Supporting lean management initiatives**
By offering calibration, repair and new gage sales services all under one roof, we are a single-source partner providing comprehensive coverage over the life cycle of all your equipment.
- **Slashing production downtimes**
We provide an industry-leading 3-5 day turnaround production time.
- **Eliminating unnecessary administrative tasks**
With our free online gage management software, all of your equipment data is tracked automatically.

360° COMPREHENSIVE COVERAGE

CALIBRATION

In our commitment to providing the most comprehensive coverage of your equipment available, we are constantly improving our current calibration offerings and expanding our scope of accreditation. All of our calibration services are ISO/IEC 17025 accredited. As an added benefit to our services, our partners receive:

- **Industry-leading 3-5 day turnaround time**
- **Level 4 certificates of calibration with line item measurement uncertainty reports**
- **Full NIST traceability, immediately available**

REPAIR

To complement our calibration services, we employ some of the broadest repair capabilities in the industry, helping our partners get the most out of their investments. Through partnering with all of the major equipment manufacturers, we provide many value-added benefits, such as:

- **Amplified ROI on capital expenses**
- **Minimal production downtime**
- **Elimination of additional setup and training costs**

NEW EQUIPMENT SALES

As the final complement to our comprehensive coverage, Fox Valley Metrology continues to maintain one of the strongest partnership networks in the industry with industrial distributors and all of the major equipment manufacturers. This network allows us to provide all of our partners with invaluable benefits, such as:

- **Complex application solutions**
- **Cost effective pricing and timely delivery**
- **Unparalleled customer service**

VALUE ADDED BENEFITS

ON-SITE CALIBRATION

Offering the ultimate in convenience, our ever-expanding calibration scope can be taken directly to our partners' doorstep. Our technicians arrive with the same cutting edge equipment and software, allowing you to:

- **Maximize production throughput**
- **Optimize budget spend**
- **Eliminate transportation risk**
- **Reduce time spent on non-critical tasks**

METROLOGY360

Since our inception in 1996, Fox Valley Metrology has always strived to drive the quality industry in technology. In 1999 we released **Metrology360**, making us the first metrology lab to provide online gage management software to its partners. Since that day, our team has been continuously improving this complimentary offering and setting the standard for gage management systems.

Metrology360 is our most critical tool to help drive your team to success. By partnering with us, a company dedicated to providing comprehensive coverage over the life cycle of all your equipment, and this software you are gaining access to many unique and critical benefits, such as:

- **Eliminating licensing fees.** We provide complimentary access to our software with all of our services.
- **Eradicating overdue equipment.** The software is loaded with automatic reporting capabilities, ensuring your equipment will never miss its calibration date again.
- **Stamping out data entry hassles.** All of your equipment data is updated real-time.
- **Ousting time spent searching for gages.** Via the QR Code scanning and asset tracking function, always know where your gages are.
- **Defeating logistical nightmares.** Our automatic order tracking allows you to stay on top of all open orders.
