Press Release

Fox Valley Metrology selectively purchases assets of another Calibration Laboratory: Expanding our service and product line with extensive Foundry Sand Test capabilities.

Fox Valley Metrology adds foundry service equipment to better service our customers and expand our market position.

Oshkosh, WI, June 9, 2010: Fox Valley Metrology Group has purchased additional equipment of an industry leading accredited calibration laboratory. Enhancing Fox Valley Metrology's existing technology and paperless system with additional resources will allow us to:

- Provide the best possible customer service available.
- Ensure the highest degree of data integrity for all calibration records.
- Continue to lead the industry with crucial product lines now supplying Test Blocks, Thermocouples, Temperature Controllers, and much more!

Power of expertise magnified

This selective asset purchase expands our physical resources and product expertise in the following areas:

1. Thermocouple (-25 to 1200°C) & Temperature devices including Temperature Uniformity Surveys
2. All varieties of hardness testers
3. Tensile & Wedge testers
4. Tachometers
5. Pressure gages & manometers
6. Foundry Sand Test Equipment (Dietert & Simpson + Gerosa equipment)
