

Fox Valley Metrology is the leader in full service calibration. We provide calibration support of precision measurement and test equipment to a diverse manufacturing base including, but not limited to, industrial foundries, defense, aerospace, medical, semiconductor and Fortune 500 manufacturing organizations.

In addition to performing calibration in several technical disciplines (Electrical, Physical/Dimensional, Force, Torque and Pressure), all calibration data and records are maintained internally utilizing our proprietary Supreme Metrology software.

We are currently looking for a talented Industrial Service Technician based in the Oshkosh, WI, or Milwaukee, WI, area. This is considered a traveling position with work being done in the local area and surrounding states. Overnight travel may be required. This permanent position is anticipated to begin immediately.

**Industrial Service Technician Job Responsibilities Include:**

1. Perform on-site calibration and repair services on industrial equipment and instrumentation including temperature controllers, pyrometers, sand testing equipment, hardness testers, and associated items.
2. Accurately and efficiently prepare necessary documentation.
3. Achieve above average customer satisfaction with timely turn-around of customer equipment and service
4. Coordinate calibration/project activities with other departments and outside vendors.
5. Proficiency in Microsoft Outlook, Excel and Word.

**The ideal candidate will possess the following skill sets:**

1. Sound critical thinking skills, a strong customer service focus, and excellent communication skills.
2. Strong understanding of metrology concepts and be mechanically inclined
3. Ability to follow detailed calibration procedures and work independently
4. 3-5 Years relevant calibration experience preferred

**The qualified candidate will enjoy the following Benefits:**

1. Comprehensive training
2. Complete health and dental
3. Short term disability
4. Two weeks PTO
5. Company provided laptop, cell phone, and vehicle for customer on-site service
6. Up to 4% company salary matching is 401K program once eligible
7. Salary is commensurate with experience
