

CALIBRATION SERVICES

The core mission of Fox Valley Metrology is to provide a single-source partner for all your quality assurance needs. At the center of this focus are our calibration services. We have dedicated our efforts to providing the most comprehensive coverage of your measuring equipment available as well as being the industry's driving force in technology.

Through our commitment to being on the forefront of technology, we have come to employ one of the most well-equipped calibration laboratories in the country. Our highly-trained technicians deliver precision and consistency that is continuously setting new benchmarks for accuracy.

All of our calibration services are **ISO/IEC 17025 accredited**. As an added benefit to our services, our partners receive:

- Access to Metrology360, our free online gage management software
- Industry-leading 3-5 day turnaround time
- Level 4 certificates of calibration with line item measurement uncertainty reports
- Full NIST traceability, immediately available
- On-site calibration capabilities
