

## HARD GAGE CALIBRATION

At Fox Valley Metrology, our **ISO/IEC 17025 accredited** lab is outfitted with the most advanced metrology equipment available today. To get the most out of this equipment, our lab utilizes sophisticated environmental control technology to ensure precise control of the temperature and humidity. The lab also features a vibration-dampening suspended floor to ensure the most consistent measurement accuracy possible. This commitment to precision and consistency, combined with highly-trained technicians and our custom-designed software, allows us to offer the best possible turnaround time in the industry.
