

REPAIR SERVICES

In our commitment to providing our partners with a single source for all their quality assurance needs, Fox Valley Metrology employs some of the broadest repair capabilities in the industry. We keep a large inventory of more than 500 common part numbers. In addition, our relationship with all of the major brands grants us priority access to unique parts that may not be in stock. All of this adds up to an unbeatable turnaround time on our repair services that grant our partners access to the many benefits of equipment repair, such as:

- **Amplified ROI on capital expenses.** Maximize the life span of measurement equipment through a focused maintenance program.
- **Minimal production downtime.** Boost throughput by utilizing the quick turnaround of repair services, compared to new equipment lead times.
- **Elimination of additional setup and training costs.** Reduce the hassle of equipment turnover by getting the most out of the equipment you are familiar with.

FOX VALLEY METROLOGY REPAIR PROCEDURES

If any repairs are needed, our team will perform an evaluation, free of charge, and contact you with a quote and approximate turnaround time. We will wait for approval on any quotes before proceeding. Once the repairs are completed, we calibrate your tools over the entire operating range at the same, great standards all of our calibration services are held to.

FOX VALLEY METROLOGY REPAIR ADVANTAGE

By partnering with Fox Valley Metrology, a company dedicated to providing comprehensive coverage over the life cycle of all your equipment, you are gaining access to many unique and critical benefits:

- **Unparalleled customer service.** Work with a partner that knows your team inside and out, including your gages, goals and any unique requirements.
- **Industry-leading turnaround time.** Due to key manufacturer partnerships and large inventories, we can guarantee timely services.
- **Elimination of repair evaluation fees.** Never worry about hidden fees with our free repair evaluations.
- **Reduced vendor coordination.** Your equipment is returned with ISO 17025 accredited calibration, cancelling any additional vendor coordination you would need.
- **Eliminate overspending on capital items.** All repairs are tracked via Metrology360, our free online gage management software, including costs, estimated lead times and description.

When you choose to partner with Fox Valley Metrology, you are choosing to partner with a company committed to the success of your team. Visit our website at www.FoxValleyMetrology.com or contact your local sales representative today to learn more about our repair services and see how this partnership can benefit you.
